"Knowledge is Our Future"

August 20, 2025

To Whom It May Concern,

It is my privilege to recommend Erik Jacobson as a student-athlete who is eager to continue his baseball career at the collegiate level. Erik has been a vital part of our program at Rocky Mountain High School, where he has distinguished himself not only as a standout baseball player, football player and hockey player, but also as an outstanding student, leader, and teammate.

On the field, Erik's athleticism immediately sets him apart. He is one of the best defensive outfielders we have had at Rocky Mountain, combining speed, instincts, and a strong work ethic to anchor our defense. His 6.5 60-yard dash speed makes him a game-changing presence, both in the outfield and on the basepaths. Offensively, Erik brings a dynamic skill set to the top of our lineup. He is an excellent base runner, recording over 20 stolen bases during the spring season and more than 30 during the summer. He handles the bat exceptionally well, with the ability to bunt for hits and consistently put pressure on opposing defenses. He has also demonstrated gap-to-gap power, with exit velocities measured in the upper 90s, and I believe his senior year will showcase his continued growth and offensive consistency.

Erik's impact on our program extends well beyond the numbers. He is a three-year starter and a four-year letter winner, but more importantly, he is a tireless worker and a true competitor who elevates those around him. His commitment to improvement, his positive attitude, and his team-first mentality makes him a player every coach wants in their program.

In the classroom, Erik is equally impressive. He is a dedicated student who balances the demands of academics and athletics with maturity and discipline. His ability to excel in both areas speaks to his character, time management, and work ethic.

I am confident Erik will make a tremendous impact at the college level, both as a player and as a person. He is the type of athlete who will embrace challenges, grow under coaching, and contribute meaningfully to a team's culture and success.

Please feel free to contact me if you would like further information about Erik.
